

# Life Can't Get Much Better

Good Charlotte

One promise, we made it  
We said we'd never break it  
Don't look down, be honest  
Tell me has it changed?

One life that, we're living  
We're somewhere unforgiven  
Don't look down, be real now  
Tell me has it changed?

I just wanna see you laugh again

Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken

Life can't get much better  
Let's just stay forever  
We've got to hold on  
We waited so long

If I knew we'd end up this way  
Do you really think I wouldn't have tried?  
If I knew it would break us down  
Do you really think I would've lied?

Now I try to forget the past  
But it's all that's on my mind  
I'd give it all if I could get you back  
I'd give it all if you were mine

I just wanna see you here sometime, 'cause

Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken

Life can't get much better  
Let's just stay forever  
We've got to hold on  
We waited so long

Don't give up on us, on us  
Don't give up on us  
Yeah

Tell me that you meant every word you said  
In the text you sent I was going to bed  
The girl with the blue eyes, with the blue eyes  
It ain't right it was fucking with me last night

Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken

Life can't get much better  
Let's just stay forever

We've got to hold on  
We waited so long

Tell me that you meant every word you said  
In the text you sent I was going to bed  
The girl with the blue eyes, with the blue eyes  
It ain't right it was fucking with me last night

Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken
