

## Self Help

## Good Charlotte

All I have right now is right here  
And right now

I want what I want, I always have  
When no one cared about me, dreams were all I had  
But nightmares grow and no one's listening  
And idle thoughts'll do their thing  
I still feel so much pain here from the past

And it cuts like a knife  
It feels like a fight  
To take back your life

Searching for the meaning  
I'm living in these feelings  
I'm ready for a reason to believe  
Now I'm working on my insides  
'Cause outside there's no reasoning  
If anyone here [?] what it seems

All I have right now is right here

I felt too bad about myself  
I never thought I was good enough for anybody else  
I couldn't look love in the eye  
I was too broken to try  
Life was a cold song that taught me not to cry

And it cuts like a knife  
It feels like a fight  
To take back your life

Searching for the meaning  
I'm living in these feelings  
I'm ready for a reason to believe  
Now I'm working on my insides  
'Cause outside there's no reasoning  
If anyone here [?] what it seems

How long I'm waiting  
Feeling lost, frustrated  
Locked out and I'm on my own  
[?] got no place to go  
How long should I stay here all alone

Searching for the meaning  
I'm living in these feelings  
I'm ready for a reason to believe  
Now I'm working on my insides  
'Cause outside there's no reasoning  
If anyone here [?] what it seems
