

# Sex On The Radio

Good Charlotte

1. She's got a smile so sweet; it's every little thing from her hair down to her feet  
Out of the magazine, and I seen her on the TV  
I love the songs she sings; cause when I turn around it's like she's sing in to me  
And every word she means; like it could be about me (it could be about me )

R: She sounds to me  
She sounds like sex on the radio  
I love to hear her scream  
And when I push play she's screamin in stereo  
Oh oh oh oh oh  
She sounds like sex on the radio  
Oh oh oh oh oh  
She put sex on the radio (sex on the radio)

2. I knew that we would meet; at one of those shows they do for the radio  
And when she looked at me; all I said was hello (all I said was hello)  
I took her out to eat; cause we were in a city that neither one of us knew  
We never went to sleep; cause when the sun came up, we knew that we would have to go

R: She sounds to me... (2x)

I've gotta admit, this feelings legit  
I don't wanna stop and she don't want me to quit  
But she gets a little nervous with what we do,  
Scared what they would say, what they would talk about if they knew

Heard her sing a song  
Yeah, I knew that she would write about  
Saw her in a magazine; I knew she could keep it quiet  
Keep it in the sheets, the radio the beats  
Between you and me, we'll throw away the key

R: She sounds to me...
