

# Standing Ovation

Good Charlotte

As I start to make my way back home  
Through the crowded streets where the people come and go  
All the faces that I see, they seem to show,  
A standing ovation, for you  
A standing ovation, for you.

We're alive, now let's just take our time  
Now let's just make the most of every day we have,  
The most of every moment, we're alive  
Now let's not waste our time  
Now let's just make the most of every breath we take  
The most of every second we're alive  
Ohhhh, 'cause we're alive  
Ohhhh.

Out the window of a train, the cities go  
Pass so fast just like the days I watch you grow  
And one day you will walk away from all you know  
This standing ovation's for you  
This standing ovation's for you.

We're alive, now let's just take our time  
Now let's just make the most of every day we have,  
The most of every moment, we're alive  
Now let's not waste our time  
Now let's just make the most of every breath we take  
The most of every second we're alive.

Can't you see, the world is on their feet for you and me  
And it's alright, you've got me  
'Cause even when I'm gone, I'll never leave  
So go and get your dreams.

We're alive, now let's just take our time  
Now let's just make the most of every day we have,  
The most of every moment, we're alive  
Now let's not waste our time  
Now let's just make the most of every breath we take  
The most of every second we're alive.  
Ohhhh, we're alive  
'Cause we're alive  
Ohhhh, we're alive.

As I start to make my way back home  
I can't help but crack a smile, 'cause I know  
This standing ovation's for you  
This standing ovation's for you.
