

## Stray Dogs

Good Charlotte

Three stops, it was not enough  
Two hearts they were broken up  
One spark and we got together  
Oh oh oh-oh-oh  
Three nights that we spent alone  
Two days I couldn't stay away  
One life we can spend together  
Oh oh oh-oh-oh

I can feel you start to pull away  
When I'm going insane

Baby have I gone too far now?  
I shouldn't let the words come out  
I'm giving you the same old speech again  
Like they do on CNN  
The ticker goes across the screen  
And you're just sitting next to me  
And now I'm left covering my mouth  
You're just walking out  
Don't leave me stray, I'm just a dog without you  
Don't leave me stray, I'm just a dog without you  
Yeah, I'm just a dog without you

(I'm just a dog without you)

My car where I sat alone  
I called but you weren't at home  
I'll try to keep it together  
Oh oh oh-oh-oh  
We said it was live or die  
We said it was low or high  
We swore for the worst or better  
Oh oh oh-oh-oh

I can feel you start to pull away  
When I'm going insane

Baby have I gone too far now?  
I shouldn't let the words come out  
I'm giving you the same old speech again  
Like they do on CNN  
The ticker goes across the screen  
And you're just sitting next to me  
And now I'm left covering my mouth  
You're just walking out  
Don't leave me stray, I'm just a dog without you  
Don't leave me stray, I'm just a dog without you  
Yeah, I'm just a dog without you  
Yeah, I'm just a dog without you

Here I go on my own  
Just another stray you know  
If a dog is who I am  
I hope you never let me go  
Here I go on my own  
Just another stray you know

If a dog is who I am  
I hope you never let me go

Baby have I gone too far now?  
I shouldn't let the words come out  
I'm giving you the same old speech again  
Like they do on CNN  
The ticker goes across the screen  
And you're just sitting next to me  
And now I'm left covering my mouth  
You're just walking out  
Don't leave me stray, I'm just a dog without you  
Don't leave me stray, I'm just a dog without you  
Yeah, I'm just a dog without you  
Yeah, I'm just a dog without you

(I'm just a dog without you)
