

# There She Goes

Good Charlotte

I feel so far away, from everything I used to be  
So I just hang my head, and feel the shame  
Like there's nothing I can do  
I thought no time or space  
Could separate us with all that we've been through  
But now she's on a plane, she's miles away  
And I just wanna go home

Oh there she goes so beautiful  
But she said she don't know who I am  
Oh there she goes so beautiful  
But she's crying

Cause she liked me better when  
I was different  
No one knew me then  
Back in Maryland  
Way before I left  
I had everything  
Can't forget the days  
I was back home in Maryland

We live too far away  
From anything to run the race back then  
From all these city streets  
That jaded me and make me feel this way

Now my thoughts drift away to summer days  
When I see your face  
You'd always smile at me  
I felt so safe  
And I just wanna go home

Oh there she goes so beautiful  
But she said she don't know who I am  
Oh there she goes so beautiful  
But she's crying

Cause she liked me better when  
I was different  
No one knew me then  
Back in Maryland  
Way before I left  
I had everything  
Can't forget the days  
I was back home in Maryland

She lived in the eye for the first time  
When I saw the world with my own eyes  
But now that you're gone  
I miss you so much more

Oh there she goes so beautiful  
She's flying back home to Maryland  
Oh there she goes so beautiful  
But she's crying

Cause she liked me better when  
Oh there she goes so beautiful  
But she said she don't know who I am  
Oh there she goes so beautiful  
But she's crying

Cause she liked me better when  
I was different  
No one knew me then  
Back in Maryland  
Way before I left  
I had everything  
Can't forget the days  
I was back home in Maryland

Oh there she goes so beautiful  
But she's crying (Maryland)  
Oh there she goes so beautiful  
And dying to get home
