

# Walk Away (Maybe)

Good Charlotte

I made this bed  
I choose to lie in it  
Live with my regrets  
Sleep with what I said  
Could this be the end  
Am I standing on the edge  
Of everything I wanted now

I was afraid  
I was afraid

Maybe I'm just scared  
To face the things I fear  
It's easier to walk away from everything

Separate my soul  
With all the things we shared  
I'm fallin' to pieces now  
Say a prayer for me  
When you go to bed  
I'm in need of your faith now

I was afraid

Maybe I'm just scared  
To face the things I fear  
It's easier to walk away from everything

If we could just reset  
And live in happiness  
Instead of our regrets  
We'd salvage everything  
We don't have to walk away

Pray for me now  
I'm in need of faith  
Pray for me now  
I'm in need

Maybe I'm just scared  
To face the things I feared  
It's easier to walk away from everything

If we could just reset  
And live in happiness  
Instead of our regrets  
We'd salvage everything

Maybe I'm just scared  
To face the things I failed  
It's easier to walk away from everything  
Walk away from everything  
Walk away from everything
