

## Loud Love

## Good Old War

If you love me, don't you let me go  
If you love me, don't go

If you love me, don't you let me go  
If you love me, don't go

There are some things that we can't control  
Give it enough time and we will know  
As the days roll, try and keep me close  
I know my love for you is sure to grow

Just give it time, give it time  
You are forgiven, please be mine

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go  
If you love me, don't go

Things are getting dark, they've been scaring me  
Now the moon is gone, and I can't see  
Do you remember, when the sun was out  
Light was all around, behind the tree

High up in the trees, you made a nest for me  
We made loud love above the canopy

Will you wait for me underneath the sea?  
Can you hold your breath until I'm free? (Until I'm free!)

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go  
If you love me, don't go

Down the old road Past the dry well (Past the dry well)  
There was one thing I could tell (I could tell!)  
And we both knew That it wasn't true (Wasn't true!)  
Only I knew It was you (It was you!)

All those hard nights, all those perfect days (All those perfect days!)  
All my memories, fade away (Fade away!)  
So tonight I'll just remember you (Just remember you!)  
How I want to, like I do (Like I do!)

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go  
If you love me, don't go

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go

If you love me, don't go

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go  
If you love me, don't go

If you love me, don't you let me go  
If you love me, don't go (Don't go!)

If you love me, don't you let me go  
If you love me, don't go
