

## Window

## Good Old War

I, I am so like window in your life  
I stay so open  
and some days, I'm as close as i can get  
When you say I love you

That's right  
That's right  
I'm gonna stay awake for you

My home, my only way to be alone  
My home, so quiet  
That noise is like 1,000 flying birds  
It's so loud, I'm shut down

That's right  
That's right  
I'm gonna stay awake for you

I, I tried so hard  
I wanted nothing  
Some time to think  
Some time alone  
There's nothing wrong with being so quiet  
There's nothing wrong  
You're never frightened

That's right  
That's right  
I'm gonna stay awake for you
