

## Indoctrination

Good Riddance

Try to turn away  
From the spectacle of living everyday  
The fear you cultivate  
The jingoist hysteria  
The lust for blood for god and state  
Indoctrinate the children with your vitriol and lies  
Then poison their humanity put blinders on their eyes  
Flesh blood-burning lights a propaganda scam  
Sequestered and obedient to god and Uncle Sam  
First we need a threat  
To the democratic interest we protect  
Create an air of fear  
So we can vilify then justify  
Support the troops who fight and die  
They lie we die
