

## Just for Today

### Good Riddance

causing pain where it wasn't intended all the problems i could have pretended it's all over now it's in the past i've got dead lines and debts and money to borrow just to make it through tomorrow tomorrow it always comes too fast this time i'm living just for today (4x) no more tomorrow no more yesterday now i'm sitting alone and i'm silently staring wasting time but i'm not even caring as minutes by the hour waste away but i'm young at heart i'm young at mind i'm not going to waste my time because there's just too much at stake [chorus]
