

## Slowly

## Good Riddance

She called me up all excited said she had a date  
With him Saturday night and she just can't wait  
I thought about his reputation & the things that he's done  
I wouldn't wish him on anyone  
I said to her when you're with him better watch your step  
Because I know this boy he's got a pretty bad rep  
I only hope he doesn't end up bringing you down  
He's been breaking hearts all over town  
Slowly you can pick yourself back up  
When that situation's got you down again  
Slowly you can pick your self back up  
Girl you've got to save it for another day  
Because you don't need him anyway  
It's just a game they play  
I know this won't come easy girl  
I know that it's hard  
And deep down inside it leaves an awful scar  
And to say I told you so  
Won't help to ease the pain inside you so  
Just remember that there's plenty of boys out there  
Who could treat you much better  
And remember I care  
it just won't do to see you hurting so bad  
I knew that boy was going to leave you sad
