

Death Goes to Disco

Goodnight Nurse

Midnight and I'm dancing with the devil
She whispers thoughts of pure evil
I see a vision of an angel
Gunshot and my heart goes
Jumpstart my heart
Burn on through the dark
Poison in my blood
I will come undone

Midnight and I'm dancing with the devil
She whispers thoughts of pure evil
I see a vision of an angel
Gunshot pull the trigger and my heart goes
(I THINK I LOVE HER SO!)

Oh yeah disco
You make my body go
Oh yeah baby
Look what you do to me

Give up the fight
And kiss me goodnight
Then let this disease
Take hold of me
My heart is dead
I lift up my head
It seems I have bled
All that have left

One more one more
She softly speaks to me
One more one more
This nightmare helps me breathe
One more one more
She softly speaks to me
One more one more
This nightmare helps me breathe
I see a vision of an angel
Gunshot and my heart goes
