

I Need This

Goodnight Nurse

Tell me that we'll be fine
Just cover up my eyes
For me
Tell me another lie
You know that I don't mind
Fool me

I-I-I-I-I-I need this I need this

If it is just for show
Don't ever tell me so
I beg you
If it's all a show
If it's all a show
Then don't you ever tell me so
Say what I want to hear
Then cover my burning ears
From the truth
From the truth

I-I-I-I-I-I need this I need this

So give me something to believe
The slightest word is all I need
Do all you can to keep me blind
And I'll pretend that I'm alright
I'm in the dark
So let me stay
Just tell me to turn away
Just tell me to turn away
Let me believe in you
You know that I want to
Hold on
I see it in your eyes
But I'd rather live a lie
Than say goodbye

I-I-I-I-I-I need this I need this

So give me something to believe
The slightest word is all I need
Do all you can to keep me blind
And I'll pretend that I'm alright
I'm in the dark
So let me stay
Just tell me to turn away
I need this
Just tell me to turn away
I need this
