

My friend I've been watching you trying
Watched your life take a beating
Watched the light inside leaving
Bring it back

Oh oh oh (2x)

Baby, Now your whole world is changing
Duty calls and its heavy
And i know Your not ready
But here it is oh oh oh
I can see that it takes its toll

Jesse come on back when your ready
We'll be waiting
anybody here would anything you need
Your not alone in this it seems

My friend take the world off your shoulders
Soon the wait will be over
Hear the sound of her breathing
Here she is, Oh oh oh

Jesse come on back when your ready
We'll be waiting
anybody here would anything you need
Your not alone in this it seems (Yeah)

Ah Ah ah (2x)

I can see that it takes its toll
Don't you let it destroy your soul

Jesse come on back when your ready
We'll be waiting
anybody here would anything you need
Your not alone in this oh

Jesse come on back when your ready
We'll be waiting
anybody here would anything you need
Your not alone in this it seems
