

Take it All

Goodnight Nurse

Wake up before someone takes your place
No don't you give up, it's not the worst you've faced
And I know

Oh, we can make it now
Oh, we can take it tonight!

We'll take it all
We'll take it all
Bury them all
And take it all tonight

Break through the voices that drown you out
Oh let them hear you, Make your words ring out loud

Oh, we can make it now
Oh, we can take it tonight!

We'll take it all
We'll take it all
Bury them all
And take it all tonight

We'll take it all
We'll take it all
Bury them all
And take it all tonight

We'll take it all
We'll take it all
Bury them all
And take it all tonight
