

Balloon?

Goon Moon

Can we get up and take a ride?
I really need to get some things off my mind
I wanna live on top of the sun
Don't want to see the dark with you or anyone

Stick me up in the sky
It won't make a difference if we live or die
Tell me jokes I'll pretend to laugh
I'm really sure it will be a big gas

I gotta get out, I gotta get out of here
Soon

Does anybody got a balloon?
I gotta get out of this room now
Does anybody got a balloon?
I wanna float away with you

Now you're stuck with the slack
You better watch it cause now its coming back
After all it doesn't matter any more
I gave it away and I got back four

Does anybody got a balloon?
I gotta get out of this room now
Does anybody got a balloon?
I wanna float away with you

Can we get up and take a ride?
I really need to get some things off my mind
I wanna live on top of the sun
Don't want to see the dark with you or anyone

Stick me up in the sky
It won't make a difference if we live or die
Tell me jokes I'll pretend to laugh
I'm really sure it will be a big gas

I gotta get out, I gotta get out of here
Soon

Does anybody got a balloon?
I gotta get out of this room now
Does anybody got a balloon?
I wanna float away with you
