

# Anything for Love

Gordon Lightfoot

In my life  
In my time and in each line I've ever sung  
And in my life  
Was it my imagination or are you still the one  
Who lingers on

I'd do anything for you  
You'd do anything for me  
We'd do anything for love

Ohh, you'd use any means  
And I would try any scheme for love  
We'd do anything for love

Once or twice  
In my loneliness I watched the world go by  
There was I  
One too many miles beyond where you might say  
Some luck was due, after all

We could have touched the sky  
You had no alibi because  
We'd do anything for love

Ohh, I would try any means  
To have you in all my dreams because  
You'd do anything for love

Not long ago as I remember  
Once upon a dark and windy day  
When love looked like a dying ember  
Before you came to call  
The beauty of it all, I though I'd lost and yet

'Cause in my life  
There in my mind in it now shines  
A guiding light  
Never again will I lose my way

Ohh, I would not tell a lie and  
You had no alibi because  
We'd do anything for love

Ohh, you'd use any means  
And I would try any scheme for love  
Simply anything for love

Ohh, I would do anything  
Just about anything because  
We'd do anything for love

Anything for love  
Anything for love  
Anything for love
