Cobwebs & Dust

Gordon Lightfoot

Island goodbye, island goodbye We been too long together, my island and I 'Cross the blue sea, 'cross the blue sea We been too long together, my island and me

Cobwebs and dust, cobwebs and dust I hate to leave you but leave you, I must Float through the sky, float through the sky We been too long together, my cobwebs and I

Troubles goodbye, troubles goodbye We been too long together, my troubles and I 'Cross the blue sea, 'cross the blue sea We been too long together, my troubles and me

Cobwebs and dust, cobwebs and dust I hate to leave you but leave you, I must Float through the sky, float through the sky We been too long together, my cobwebs and I

Unlock the gate, unlock the gate Lower the drawbridge, the hour is late Whom shall it be? Whom shall it be? We been too long together, my drawbridge and me

Cobwebs and dust, cobwebs and dust I hate to leave you but leave you, I must Float through the sky, float through the sky We been too long together, my cobwebs and I

Tear down the walls, tear down the walls Gather my treasure and scatter it all 'Cross the blue sea, 'cross the blue sea We been too long together, my island and me

Run to her side, run to her side Run to my island and make her yer bride Whom shall it be? Whom shall it be? We been too long together, my island and me
