

## I'll Prove My Love

Gordon Lightfoot

Any way the wind may blow  
Any way the creek may flow  
Any way the crow may fly  
Within the confines of the sky

I will prove my love to you  
In everything I say and in all I do

Anywhere the song is king  
Anywhere the robin sings  
Anywhere the lake is cold  
Anywhere the bell is tolled

I will prove my love to you  
In everything I say and in all I do

Anytime our paths don't cross  
And the losin' dice are tossed  
Anytime you know what's best  
Anytime I can't care less

I'll make it up to you  
In everything I say and in all I do

Any way the wind may blow  
Any way I stub my toe  
Any way the tree might bend  
Any way the day might end

I will prove my love to you  
In everything I say and in all I do  
I will make it up to you  
In everything I say and in all I do
