

If You Got It

Gordon Lightfoot

If you got it
Don't lose it girl, it's got to be
The one creative thing
That's left for you and me

If you find it
Don't lose it all the very next day
Lock it in your soul
And throw the key away

So, don't you let it go
Let it stay, let it grow
Like the snow
Don't let it melt away

If you find it
Then give it girl, with all your might
Forget about yourself
You're not the losin' kind

If you get it
Then keep it cool, don't let it die
You may only see it once
Don't let it pass you by

So don't you let it go
Let it stay let it grow
Like the snow
Don't let it melt away

If you find it
Then give it girl with all your might
Forget about yourself
You're not the losin' kind

If you get it
Then keep it cool, don't let it die
You may only see it once
Don't let it pass you by

Pass you by, don't let it die
Don't let it go
