Long Way Back Home

Gordon Lightfoot

From the railhead to the boatyard From the factory to the farm From the mine to the mill yard I've weathered the storm

From the bar room to the bedpost I've wasted my days, all I have is my drink And the time left to think While time slips away

Just look at my face When you tell me goodbye You'll see what I'm after By the look in my eye

Just walk away and leave me alone It's a long way back home

Now in case you should ask me What it is that I've done I'd say I'm a soldier Who once had a son

But my son doesn't know me
That's his right to choose
Oh say, can you see? My best friend is me
I'm a friend I could use

Just look at my face When you tell me goodbye You'll see what I'm after By the look in my eye

Just walk away and leave me alone It's a long way back home

Now the pages have faded The story grows cold And the plot falls to ashes Like the ruins of old

Those rats in my rafters
They're after my shoes
And anything else they can find on the shelf
I've said they could use

And just look at my face When you tell me goodbye You'll see what I'm after By the look in my eye

Just walk away and leave me alone It's a long way back home It's a long way back home
