

Stay Loose

Gordon Lightfoot

If you've got a heartache
Of the kind that will not pass by
Even if you don't see the end
Of what lies around the bend

Don't stay that way
It's all in a day believe me
Even the best of dreams must end
Even so it grieves me

Stay loose, don't fight it
Let it take you all the way and
If it's wrong, you will right it
Do not waste these hours away

How many times have I told you
These are the tears I've shed
Could it be that I need help
Is it maybe I've come undone

And one thing more
You know it don't come easy
Even the best of friends must part
Even so it grieves me

Stay loose, don't fight it
Let love take a holiday
If it's wrong, you're gonna right it
Do not waste these hours away

Soon the storm will be over
And the clouds will all pass by
To be insane beyond belief
Is sometimes the best relief

And one thing sure
Love never did come easy
Even the best of dreams must end
Even so it grieves me

Stay loose, don't fight it
Let it take you all the way and
If it's wrong, you will right it
Do not waste these hours away

Stay loose, don't fight it
Let love take a holiday
If it's wrong, you're gonna right it
Do not waste these hours away
