

I tried to live six years ago
when this story started
The sun, it told me where to go
open minded, open hearted

Freedom
Freedom was my vision
every breath a dream
A million years ahead
all is what it seems
Freedom was my vision
every breath a dream

Or are you taking by surprise
covering your sleepy eyes
The mocking bird won't sing for you
What ever happened
to these friends I knew

These friends I knew
or was it just a dream
Dreams are for real
Life is only how you feel

Freedom
Freedom is my vision
every breath I dream
A million dreams I had
and they're all for real
Freedom is my vision
every breath I dream

Breathe on!
