The Mass Insanity

Gorefest

Your mind is overtaken
By the ignorance of mankind
Stop thinking about your future
Just living for today
Living for today

But what's the point of your life When you cannot think, just follow rules When emotions are based on hatred The truth upon lies

The downfall of humanity
Is caused by mass insanity
Neglecting of self consciousness
Leads to self-destruction

The killing of our environment Means the end of our existence You had your fun, your game to play So it's only you who is to blame It's only you who is to blame

The downfall of humanity
Is caused by mass insanity
Neglecting of self consciousness
Leads to self-destruction

You live in fear, it's now too late Your future has been written Your life will never be the same Though it's only you who is to blame It's only you who is to blame
