

Inflicted Maturity

Gorguts

A process of infliction
That make humans older mentally
Annoys cerebral evolution
But leaves the body like it used to be

Physically being like a baby
Who can not stand alone upright
But mentally already adult
To compute without trouble

This premature evolution
Is fastly and easy accomplished
By a painless stupid injection
Of a liquid in the nape
When the intellectual dudation
Has reached a too high level
Intelligence turns to insanity
Institutionalized... poor little baby

This process of infliction
That makes human older mentally
Upsets your mental situation
And brought you to perpetual insanity
