

Finish What You Started

Gorilla Biscuits

Sometimes I just see what I want to be. We started off right tried to unite lost our sight - Now it all bites

What you want - I don't want What you need - I don't need Want to fight - See the light Punch him out - he'll just bleed

Finish what you started be open hearted Don't be retarded just finish what you started

I feel we've broken promises made to those who've paved the way our music and scene I wish it could be attitude free where nobody's mean.
