

## Busted and Blue

Gorillaz

Where does it come from?  
When everything was outside  
Busted and blue  
How in the universe  
Through the lithium  
Busted and blue

I was asked by a computer  
A shadow on the wall  
An image made by Virgil  
To rule over us all  
So amplify the sirens  
And to find real amends  
I'm through the echo-chambers  
To other worlds away

All my life  
All my life  
Be my light  
On me, I am a satellite  
And I can't get back without you  
Be my love  
Be my love  
Be my light  
Be my light

Where do they come from?  
The wires that connect to us  
Weightless and fall on your body  
'Till we're invisible  
I'm with you throughout it, choose  
Busted and blue

All my life  
All my life  
Be my light  
On me, I am a satellite  
And I can't get back without you  
Be my love  
Be my love  
Be my light  
Be my light

Busted and blue
