

# Magic City

Gorillaz

I'm on the high ridge looking down  
While we're evolving, I get old  
If I get back then I'll be grateful  
Look there's a billboard on the moon

Let me take you this far  
This crossing isn't much to me  
There's lightning in the storm clouds  
And I'll send you there to stay

You got me lost in Magic City  
You got me questioning it all  
I hope that I make it home by Wednesday  
And this Magic City lets me go

Magic City  
Magic City  
Magic City  
Magic City

You put me up here in the penthouse  
And painted me in red, white and blue  
I filled the canyons with my ego  
Look there's a billboard on the moon

You got me lost in Magic City  
You got me questioning it all  
I hope that I make it home by Wednesday  
And this Magic City lets me go
