

Bad Boys

Gosia Andrzejewicz

Attention please

Listen to me I'm talking to you right now
No more bad boys and more problems in my life
You are so fake and selfish please let me live
You can lie to everyone but me

Oh baby if you treat me like gold
So I would never never ever let you go
But someone told me that you cheat too much
I didn't cry about your lies you make me smile

Bad boys always end up causing sleepless nights
I have no way my awesome babe
Gonna say to you goodbye
Bad boys always end up breaking women's hearts
I have no way I must escape

You always talk bout nothing in many words
You dont even know to treat me like gold
If you could change your style just for a while
Boy you will be the best thing in my life

But baby you made such a huge mistake
And know there's no more no more no more games to play
And someone told me that you cheat too much
I didn't cry about if you just make me smile

Bad boys always end up causing sleepless nights
I have no way my awesome babe
Gonna say to you goodbye
Bad boys always end up breaking women's hearts
I have no way I must escape

One day
I missed you so much but now I don't need you
You're not mine
I have no time for you
I have no time for you
I have no time for you
I have no time for you

Bad boys always end up causing sleepless nights
I have no way my awesome babe
Gonna say to you goodbye
Bad boys always end up breaking women's hearts
I have no way I must escape

Oh baby if you treat me like gold
So I would never never ever let you go
