

The Best Thing

Gosia Andrzejewicz

Always together
You were my destiny
always forever
you and me
All days alone
and I miss you
it hurts me baby
my truth inside
wants you next to me

You're the best thing I've had
You're the best thing I've had
You're the best thing I've had
Why have you gone?

So many moments
so many dreams inside
how could you break it?
why?
I never thought
I'd find the real love baby
my truth inside
wants you next to me

You're the best thing I've had
You're the best thing I've had
You're the best thing I've had
Why have you gone?

Always together
You were my destiny
always forever
you and me
All days alone
now I can't live
without you baby
All days alone
not to next to me

You're the best thing I've had
You're the best thing I've had
You're the best thing I've had
Why have you gone?
