## **Fire with Fire**

It ain't the end of the world girl You'll find your place in the world girl All you gotta do is stand up and fight fire with fire

Big or small makes no difference We're gonna tell them what shape you'll be All you gotta do is stand up and fight fire with fire

You gotta run on We're gonna find you Who-ho-oh You turn around We're right behind you Yeah-eh-ey Can't you see that the bigger we are the harder you'll fall

Now it ain't the end of the world girl You'll find your place in the world girl All you gotta do is stand up and fight fire with fire

In the end no one is innocent Big or small it makes no difference Get up, stand out and hold your head up higher and higher - hig her

You gotta run run We're gonna find you Who-oh-oh You turn around We're right behind you Yeah-eh-ey Can't you see that the bigger we are the harder you'll fall
