

## Wild Love

Gossling

1. I was sour and I never wanted love to start  
I thought, love keeps, for now we'll stand apart  
I kept thoughts on how to be alone  
Oh, now I feel my love for you can grow

X: Make and noise so I know you're there  
Just a touch is enough for me my dear

R: Take up my heartstring, play me what love brings, show me yo  
ur lover ways  
Let feelings flow, tell all you know  
Show me you would be, the one who could be, all that I ever  
crave  
The fire of, my Wild Love

2. The way through our lives with another one  
Is the lone way our hearts won't come undone  
I took some time to come to you  
But, now I see the reason my love grew

X: Make and noise...

R: Take up my heartstring...

X: Make and noise...

R: Take up my heartstring...
