

# Shadows of Time

## Gothic Knights

For many years I traveled, distant oceans and far away lands  
Lost cities I have wandered, time slipping through my hands  
Within these eyes, my past disguised  
Always set free, lived a thousand lives

Through the ages of our being, machine to carry me wherever I  
decide  
Explore the human mystery, found the answers lost in antiquity  
Drifting through shadows of time  
Immortal, no hope to cross to the other side  
My prison this promised land

Once a prince, I have conquered, kingdoms now eroded in sand  
Climbed through a magic portal, cursed by the pharaoh's hand  
Now just a dream, no one but me  
Alone to be, till the end of time

A ghost, a shadow, a demigod  
A prisoner, a traveler of space and time

Oh pharaoh, pharaoh, new world in time

The light of the heavens surrounds me, forces carry me higher  
Spirits point to me, follow the sign, forces carry me higher

To the vortex, the swirling light, curse of eternal light  
Cannot escape the peril, to the gate of a new world in time  
Oh pharaoh, pharaoh, new world in time  
A shadow, a nomad, a man  
Cursed immortal  
A new world time
