

## Beautiful

Gotthard

I turned off the news today  
I needed something beautiful  
The world slowly fades away  
And you remain indescribable  
Feel all the weight has gone  
In my mind alone, your smile  
Only the steepest road  
Is the one I wanna take with you  
We could be beautiful  
We could be beautiful, you and me  
We could be beautiful  
We could be beautiful, you and me  
I threw out my cell today  
The feeling, almost spiritual  
The silence that speaks to me  
Your splendor is indisputable  
Feel all the weight has gone  
Just the gift alone,  
sublime  
Roses are better known  
But I'll give everything in me  
Together we could be beautiful  
We could be beautiful, you and me  
We could be beautiful  
We could be beautiful, you and me, you and me  
We could be beautiful  
We could be... We could be... We could be...  
Together, we could be beautiful  
Together, we could be beautiful, you and me  
We could be beautiful  
Together, we could be beautiful, you and me  
We could be beautiful  
Together, we could be beautiful, you and me  
We could be beautiful  
Together, we could be beautiful, you and me  
You and me...
