

# Don't Let Me Down

Gotthard

And I stare at the face in the mirror  
I see a man, and there's hope in his eyes  
This empty room's so lost inside  
Chasing memories of the past

Ain't no place, ain't no road where I'm going  
Cuz it's you all I need to show me the way  
As time goes by, and you're not there  
I miss you more and more every day

Don't let me down  
For the time we spent together  
Now I need you more than ever, baby  
Don't let me down  
We can change it for the better  
All the world don't mean a thing  
If you're not there  
All the world don't mean a thing  
If you're not there

Was it you, was it me, doesn't matter  
Time built a wall so hard to climb  
Oh I was blind, but now I see  
I still hope for you to come my way  
Yeah, I'm beggin' you to stay

Don't let me down  
For the time we spent together  
Now I need you more than ever, baby  
Don't let me down  
We can change it for the better  
All the world don't mean a thing  
If you're not there  
Uh babe, if you're not there

Without your love the sun won't shine again  
Need you by my side to soothe the pain  
Tell me all that we've been through was not in vain

Don't let me down  
For the time we spent together  
Now I need you more than ever, baby  
Don't let me down  
We can change it for the better  
All the world don't mean a thing  
If you're not there  
If you're not there

All the world don't mean a thing  
If you're not there
