

# Electrified

Gotthard

The rush and the feelin'  
Rollin' and wheelin'  
Ridin' on a thin line  
Risk is a friend of mine  
Paint my picture if you're feelin' the need  
Alive and kicking, get the best out of me  
Feel the engine runnin' and the rumble below  
Rich or lean, just don't mess with the flow, with the flow  
Hear the thunder roaring I can see the light  
I can see the light  
Feel the power surge inside  
I feel electrified  
My soul and circuits are fried, I got the devil inside  
Let's get electrified  
You and I  
Don't stop breathin'  
Watch me I'm leavin'  
Ain't never gonna die  
Ride with the moon in the midnight sky, in the sky  
See the flash of lighting, power overload  
Power overload  
I can't even feel the road  
I feel electrified  
My soul and circuits are fried, I got the devil inside  
Let's get electrified  
You and I, you and I  
In the midnight sky, I can see the light  
Power surge inside, I can't feel the road  
I feel electrified  
My soul and circuits are fried, I got the devil inside  
Electrified, electrified, no, no, no, no... Electrified  
My soul and circuits are fried, I got the devil inside  
Electrified you and I, you and I  
You and I, you and I
