

Fight

Gotthard

Hold tight, got it all on and I'm taking so shoving
Old fight, got me down on another bad Light

Hold on, try to right wrong but I gotta get moving
Roll on, rest no sleep I'm rolling alone

Holding in the corner
Back against the grain
Waiting for the moment
It's all about to change

Take my dare take my throne
on and on and I'll, on and on and I'll
Hold my ground hold my own
On and on and I'll keep on fighting

All fine, keep it in mind when I hit the ground running
All Primed, I can't wait for another sign

Holding in the corner
back against the wall
Riding out the moment
It's all about to fall

Take my dare take my throne
On and on and I'll, on and on and I'll
Hold my ground hold my own
On and on and I'll keep on fighting

Take my dare take my throne
On and on and I'll on and on and I'll
Hold my ground hold my own
On and on and I'll on and on and I'll
Take my dare take my throne
Hold my ground hold my own

Oh on my own
On and on and I'll, on and on and I'll
On and on and I'll keep on fighting
