

## Get Up 'n' Move On

Gotthard

I'm grooving on my own, gotta make it all mine  
Faster than light and I know I'm alive  
Feeling like a race that I just gotta own  
Think out a move and I go, go, go, go, go, go

I'm moving on alone cause I'm feeling the drive  
Chasing the dream that you rolled on the line  
Thought I had a chance, made a fool outta me  
And now it's the sound of a mean old me

On the line, all your words and all that jive  
Speak your mind, all your words and all your lies  
Rolling a face in a bullet proof case  
Was I the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue  
Nothing to say to my face? Get up'n'move on

Now I'm in the zone and I got it all right  
Open my eyes and the day and the night  
Only one thing and I gotta agree  
The best things in life, no they ain't that free

On the line, all your words and all that jive  
Speak your mind, all your words and all of your lies  
Rolling a face in a bullet proof case  
Was it the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue  
Nothing to say to my face? C'mon...  
Why don't you let it all out? It's on the tip of your tongue  
Nothing to say to my face? Get up'n'move on

Why don't you spit it all out? It's on the tip of your tongue  
Nothing to say to my face? C'mon... C'mon...  
Why don't you let it all out? Another slip of your tongue  
Nothing to say to my face? C'mon  
Get up'n'move on... C'mon... Get up'n'move on  
Get up... Get up... Get up'n'move on
