

Give Me Real

Gotthard

Take what you want and only taste from the middle
Take what you wanna take and prey
Prey on another break and hold on to what you make
But wait till you've rusted out the metal

Something you kinda said
Down down it's gotta end
Don't wait cause it ain't gonna bend
Gone, gone without a trace
Lost on a kissing face
Wasted another life on you

I gotta feel, I gotta feel it now,
Just give me real
I gotta feel, I gotta feel it now,
Just give me real, real, real, real, real, real

Make what you need and get a cake on a winner
Make what you wanna make your case
Chase what you wanna chase and feed on another face
But brace for the one that sees you coming

Something you kinda said
Down down it's gotta end
Someone that you couldn't bend
Gone, gone without a trace
Lost on a kissing face
Wasted another life on you

I gotta feel, I gotta feel it now,
Just give me real, give me real
I gotta feel, I gotta feel it now,
Just give me real, real, real, real, real, real

Take what you want and only taste from the middle
Take what you wanna take and prey

Something you kinda said
Gold mine and only lead
Wasted another life on you

I gotta feel, I gotta feel it now,
Just give me real, give me real
I gotta feel, I gotta feel it now,
Just give me real, real, real, real
