

Hole In One

Gotthard

When I wake up in the evening
With a big mess in my brain
I try hard to remember
Strives are all in vain

But that's alright, alright
I'm a lucky man
That's what I am

There's one chance in a million
Just like a hole in one
When I get right into trouble
Water to my chin
I turn the wheel of fortune babe
And get another spin

And that's alright, alright
Sounds good to me, good to me
There's one chance in a million
Just like a hole in one

When I wake up in the evening
Water to my chin
I turn the wheel of fortune babe
And get another spin

And that's alright, alright
Sounds good to me, good to me

There's one chance in a million
Just like a hole in one
There's one chance in a million
Just like a hole in one
There's one chance in a million
Just like a hole in one
