

## Hush

Gotthard

I got a certain little girl,  
That's on my mind  
No doubt about it,  
She look so fine  
She's the best girl that I've ever had  
Sometimes for sure make me feel so bad

Na, na, na.....

Hush, hush, I thought I heard callin' my name now  
Hush, hush, she broke my heart  
But I love her just the same now  
Hush, hush, I thought I heard callin' my name now  
Hush, hush, I need her love and I'm now not  
To blame now

I've got her early in the morning  
I've got her late in the evening  
Oh, I wanna never need it now  
Oh, gotta, gotta have it  
Gotta have it now

She's got lovin' like quick sand  
Only took one touch of her hand  
Blow my mind and I meant so deep  
I can't eat all  
I can't sleep

Na, na, na.....

Hush, hush, I thought I heard callin' my name now  
Hush, hush, she broke my heart  
But I lover her just the same now  
Hush, hush, I thought I heard callin' my name now  
Hush, hush, I need her love and I'm now not  
To blame now
