

# I Won't Look Down

Gotthard

I can be your recipe  
Dream a dream and morning's on the way  
You can sleep, forget about me  
Playing king and queen, I'll save the day

Let me get my crown  
And change me, only wanna save me  
I know you love me  
Take me, hang me on your golden chain

And I won't look down  
No I won't look down... Down  
No I won't look down... Down... Down  
No I won't look down

I could ease the seven seas  
Fetch a bone, a smile and shake a tail, oh!  
And I can please down on the knees  
Mona, Mona, smiling out the rain  
Smile out the rain

Change me, only wanna save me  
I know you love me  
Take me, hang me on your golden chain

And I won't look down  
No I won't look down, down  
No I won't look down, down, down

Turn it all around, I won't let you down...  
Down... And I won't look down

Weak and as long as I'm a fast bend  
Drowning out the deep end  
More than just a good friend  
Change me, everything about me  
All that made you want me  
Hang me on your chain
