

## Lay Down the Law

Gotthard

Everybody's into the race  
For a piece of the action  
Holding on illusions  
Where money rules the world

Travellin' at speed o' light  
To self made destruction  
Another Mr. Nice Talk  
Sure's gonna change it all

As long as I can roll all the dice  
I keep on playing  
Knock on wood  
And even in the darkest of hours  
Someone's watching over you

Lay down the law

No you can't keep the rain  
From falling down on your head  
Gotta play by the rules;  
Rules that some others have set

But don't you ever let your dreams  
To be taken forever  
Beware of what you see  
That's not always what you get

As long as I can.....
