## Lay Down the Law

Everybody's into the race For a piece of the action Holding on illusions Where money rules the world

Travellin' at speed o' light To self made destruction Another Mr. Nice Talk Sure's gonna change it all

As long as I can roll all the dice I keep on playing Knock on wood And even in the darkest of hours Someone's watching over you

Lay down the law

No you can't keep the rain From falling down on your head Gotta play by the rules; Rules that some others have set

But don't you ever let your dreams To be taken forever Beware of what you see That's not always what you get

As long as I can.....

## Gotthard
