

## Love Soul Matter

Gotthard

You can go to the east, go to the west  
There are so many ways to find happiness  
There is so much to take, so much to give  
So many trails and so many tricks

And you're gonna be wrong, you're gonna be right  
Someday you'll be down some you'll be up  
But whatever you do whatever you say  
There's only one thing that can show you the way

Love, a soul matter, our heaven on earth  
Love, forever, wherever you go

You can live without clothes on top of a hill  
Don't care about money and do what you will  
Or live in a castle, diamonds and gold  
You still won't be happy if you can't find love

We all have our dreams that we keep in our hearts  
Some may come true and some may fall apart  
Sunshine and rain, that's what it's all about  
Live as you like but don't live without

Love, a soul matter, our heaven on earth  
Love, forever, wherever you go

Look to the east, Look to the west  
Look all around to find happiness  
Brothers and sisters, all over the world  
Lets get together, let it be love
