

## Peace of Mind

Gotthard

Carry all the weight upon your shoulders  
It's another day in your frantic life  
You're just another voice in the crowd  
You don't know who you are  
Sometimes you don't understand

Nothing's ever what it seems  
They sell you wrong for right  
All you really need...  
Some peace of mind, yeah

Meanwhile all go mad around you  
More and more unsatisfied  
In the race for progress we've spun out of control  
Don't you think this all  
Has gone too far....

But life is precious  
A gift we shouldn't waste  
Go and get yourself  
Some peace of mind

Nothing's ever what it seems  
They sell you black for white  
And the world is upside down

But live is precious  
A gift we shouldn't waste  
Somebody help me find  
My peace of mind
