

# Shine

Gotthard

Just took another turn,  
You're here and now I burn  
Just like another sun,  
I'm blind and now it's done

One thing I gotta say,  
You're in my day  
Just like another why,  
You're on my mind

Your smile and what it does  
Nothing I've known  
Your light and what it does  
Just turn it on,  
Just turn it on

Shine and shine away  
Like a "ride on" supernova,  
Cause you're brighter than the day  
Shine and shine away  
And there ain't no Casanova,  
Gonna come and take you away  
From me

One word it ain't a line,  
One word I give you mine  
I can't get enough of this,  
Only on a kiss

One thing you gotta know,  
It won't let me go  
I can't wait another day,  
You gotta come my way

Your smile and what it does  
Water from stone  
Your light give it what it loves  
Just turn it on,  
Just turn it on

Shine and shine away  
Like a "ride on" supernova,  
Cause you're brighter than the day  
Shine and shine away  
And there ain't no Casanova,  
Gonna come and take you away  
Cause I gotta win you over,  
Before you look the other way from me

Shine and shine away,  
Shine and shine away, go on and

Shine and shine away  
Like a "ride on" supernova,  
Cause you're brighter than the day  
Shine and shine away  
Cause there ain't no Casanova,

Gonna come and take you away from me

I'm gonna come and take you away

I'm gonna come and take you away
