

# Stay with Me

Gotthard

Never time I live  
A fever from my soul  
This world in mine disease  
In never won't a stone

There everyone knees  
Peaces of my heart  
Do they as you please  
That's you've from the start

Would you stay with me  
Would you stay with me  
Would you keep the sky from fallen  
Would you take me if I change

Would you stay with me  
Would you stay with me  
Would you keep me if I change  
If I could be somebody else would you stay with me

That every time they're believe  
Your love that's call  
I forget the slowly breathe  
Something I've become

Every world I knees  
What that's from with in  
Here the maze, the freeze  
But they eyes is getting in

Would you stay with me  
Would you stay with me  
Would you keep the sky from fallen  
Would you take me if I change

Would you stay with me  
Would you stay with me  
Would you keep me if I change  
If I could be somebody else would you stay with me

If I could be somebody else

A wake we, my eyes closed  
And I can't feel the ground  
Take all these peaces  
I can't foot from back together now

Stay with me  
Would you stay with me  
Would you keep the sky from fallen  
Would you take me if I change

Would you stay with me, stay with me  
If I could be somebody else  
Stay with me, stay with me

Would you stay with me

Would you stay with me  
Would you keep me if I change  
If I could be somebody else would you stay with me

Never time I live  
Peaces of my heart  
Take the maze, the please  
That's you've from the start
