

The Story's Over

Gotthard

How long, how long will it take
When is it over, it's over due date
Prime time, it's showing within
Keep on repeating, keep on repeating, over and over again

Wide lines, something I said
I can't remember, how could I forget
Way down, I'm losing my faith
Double the faces, never again

The story's over, the story's over
It ain't no word of mine, twist the best that you can find
The story's over, and getting older
You've lied enough to me, with a smile you make me bleed
The Story's over

Am I streaming a dream
Won't be the first time they made up a scene
White lights flash in my eyes
I'm not going blind man, I'm not going blind

The story's over, the story's over
It ain't no word of mine, twist the best that you can find
The story's over, it's getting older
You've lied enough to me, with a smile you make me bleed

Way down, I'm losing my faith
Double the faces, judas the kiss

The story's over, the story's over
You've lied enough to me, With a smile you make me bleed
The story's over, it's getting older
It ain't no word of mine, twist the best that you can find
the story's over

No no no no
The story's over
No no no no
